FOR THE PERSON ORGANISING THE FUNCTION · 2026

Year-end transport planner

Getting everyone to the venue is the easy part. Getting everyone home safely after a few drinks is what organisers worry about. Use this planner to sort transport early, whoever you book with.

1. The countdown

6 weeks out	Fix the date, venue and rough headcount. December Fridays book up first.
4 weeks out	Decide how the night ends: home drop-offs, back to the office, or one way only.
3 weeks out	Get two quotes. Ask every company the ten questions on page 2.
2 weeks out	Confirm and pay the deposit. Share one link so staff add their own address.
1 week out	Close the list. Check everyone has a pickup point and a way home.
2 days out	Final headcount to the transport company. Changes after this may cost extra.
On the night	Everyone has their driver, car and boarding code. One contact person on call.

2. Headcount sheet

One line per person. Group people by area: that decides how many cars you need.

Name	Mobile	Pickup area	Going home to	Leaving at

Tip: a car takes up to 4 people, a larger vehicle up to 7. Cars needed ≈ people going to each area ÷ 4, rounded up.

Year-end transport planner

3. Budget worksheet

Ask for one fixed total, not a per-kilometre estimate. Fill in the quotes you receive.

LOWEST COST

Back to the office

Everyone returns to one pickup point.

Cars needed _____

Quote A R _____

Quote B R _____

SAFEST AFTER DRINKS

Home drop-offs

Each person dropped at their door, in the nearest order.

Cars needed _____

Quote A R _____

Quote B R _____

CHEAPEST, LEAST CONTROL

One way only

To the venue; people make their own way back.

Cars needed _____

Quote A R _____

Quote B R _____

4. Ten questions to ask any transport company

01 Is the price a fixed total, and what exactly does it include?

02 How are your drivers vetted? Do they hold a professional driving permit (PrDP)?

03 How do drivers confirm the right person is getting in the car?

04 Do only booked guests travel, and only to the address on the booking?

05 Can each person add their own address, or do I have to collect them all?

06 How do you group people into cars, and how long will the longest route take?

07 Can I see where every car is on the night?

08 Who do I call on the night if something goes wrong?

09 What deposit do you need, when is the balance due, and what if headcount changes?

10 What happens if a car can't make it? Is that leg refunded?

Want us to quote your function?

Send the date, venue and headcount. We group your team by area and send one fixed quote.
